BESKRIVNING

Frank Bowling, born 1934 in British Guiana, has achieved recognition in recent years as one of the most important British post-war artists, and has come to ever-greater international attention. He was elected into the Royal Academy of Arts in 2005. Traingone focuses on a selection of works from the period 1979-96. These paintings are filled by a lyrical presence that summons up visions of the natural world. This book is published in conjunction with his exhibition at the Spritmuseum in Stockholm.
