BESKRIVNING

Learning a language on your own is made easier with Univerb's language courses. The language courses are based on the well-known method: Listen - Repeat - Learn. This course is bilingual which simply means that every phrase you hear is first spoken in English and then repeated slowly in Norwegian allowing you to easily obtain the correct pronunciation. A short pause after each phrase allows you to practise saying the phrase yourself, the phrase is then repeated at a normal rate of speech. It is easy to keep up the pace and you decide when and where you want to practise learning your new language. To make this course interesting and useful, we concentrate on words and phrases you can immediately use upon arrival in a foreign country. This course consists of 37 audio chapters, two text booklets and a combined mini-grammar and study guide in PDF-format in which the most important basic rules of Norwegian grammar are presented.
